

Environmental Policy

DRM Industrial Fabrics Ltd. recognises their responsibility to protect the environment and continuously strives to reduce their environmental footprint.

We have assessed our activities and identified that our environmental aspects/impacts include energy consumption and waste.

In order to promote good environmental practices our Policy aims are: -

- To identify the significant environmental impacts of our activities.
- To develop suitable objectives and targets and implement changes minimising our environmental impacts.
- To comply with relevant legislation, regulation and other requirements
- To prevent pollution, minimise our use of electricity and reduce waste.
- Endeavouring to re-use, recover or recycle materials wherever possible.
- To ensure that environmental responsibilities are defined, communicated and understood at all levels within our organisation and provide appropriate training where needed.
- To ensure that suppliers and contractors understand the Company Policy and encourage them to develop a responsible approach to environmental issues.
- To always look for ways to improve our overall environmental performance.

We will ensure that this policy is communicated and available to all relevant stakeholders as appropriate.

This policy shall be reviewed for effectiveness and suitability at least annually as part of the management review process.

This statement represents my commitment on behalf of the company.

Peter McGuinness
